

# ATLEC

## Assistive Technology Learning Through a Unified Curriculum

518229-LLP-1-2011-UK-LEONARDO-LMP

# ICT based Assistive Technology opens opportunities learn it, use it, train others!

### Aims & Objectives:

- ▶ Promote the development of ICT based AT (Assistive Technologies) skills among people with disabilities;
- ▶ Develop digital skills relevant to the labour market needs – New Skills for New Jobs.
- ▶ Support the development of innovative ICT based content, services & practice for lifelong learning;
- ▶ Support participants in accessing training activities that will facilitate personal development & employability in the European labour market;
- ▶ Increase participation in lifelong learning by people of all ages, including those with learning and/or physical needs.

### Is ATLEC right for you?

The project offers a solution for:

- ▶ People with disabilities (learners & potential trainers) who seek employment or who are employed but find their career options are limited by their lack of basic ICT AT skills;
- ▶ Trainers of ICT AT at training centres, VET & special education centres;
- ▶ Human Resource (HR) managers in companies who want to improve their knowledge of ICT AT.

### Outcomes:

- ▶ To create a specific ICT AT curriculum taking into account individual needs/different disabilities (with pilots in UK, BE, GR and IT);
- ▶ To deploy an online as well as mobile learning platform that will enrich the learning experience;
- ▶ To make the working environment more accessible for People with Disabilities by implementing a novel, contemporary and benchmarked learning of ICT AT solutions;
- ▶ To prepare the necessary steps for qualifying people with disabilities as ICT AT trainers.
